Dear Mr. Schlottfeldt :

I am sorry that there has been so much difficulty with the correspondence concerning Mr. José Flavio Candido. I think now any arrangements that might possibly be made will have to wait until 1961.

If Mr. José Flavio Candido is still interested in coming to Mexico to study with us corn breeding methods, I would suggest that he write me a letter expressing his interest. I shall, then, be very happy to see what arrangements might be made. It may be possible for him to come to Mexico on a OAS fellowship. A form for this fellowship is enclosed and if he is interested, I suggest he fill it out as soon as possible and send it to Washington.

Sincerely yours,

E. J. Wellhausen
