Mr. Karl Kolb  
German Scientific Supplies  
Frankfurt - Main 1  
Untermainkai 34  
GERMANY

Mr. Karl Kolb:

May I advise you that we have received information from Rio concerning the absolute necessity of having a "previous licence" made with the Brazilian Custom before any material arrives in Brazil.

Therefore I would like to suggest that you send us your final lists with the usual specifications as for number of items, weight and prices, at your earliest convenience, in order to secure the necessary clearance before we give you the go ahead signal for putting aboard the shipments.

Sincerely yours,

Escola Superior de Agricultura da  
Universidade Rural do Est. de M. Gerais

C.S.S.
