Dear Mr. Kolb:

This is made to inform you that your lists of prices as well as copies of your letters have been sent to Dr. John McKelvey, of The Rockefeller Foundation.

May I inform you that your last list, which refers to Fisher's Catalogue, was sent to a wrong place and thus it took several days to be received by my substitute during one of my temporary absences from Viçosa. May I also add that the first page of such list, which I assume had your fourth introductory letter, could not be found.

Once you have received this letter it is implicit, I understand, that The Rockefeller Foundation has approved your lists and is placing the necessary authorization for you to go ahead through the proper steps to send us the material that you have listed.

Sincerely yours,
