To
The Rockefeller Foundation

We understand that Mr. João Bosco Nazareno is asking for a grant of the Rockefeller Foundation in order to study Extension Education in Mexico during the year of 1961.

Mr. Nazareno is now in the last year of the course of Agriculture at Viçosa, Minas Gerais, and he is developing very satisfactory. As soon as he finishes his course, he will join ACAR to work as a county extension agent.

If his grant is approved, he will go to Mexico and in his way back to Brasil he will be employed in ACAR, since his place is reserved.

Considering our need of well trained personell we recommend highly the name of Mr. João Bosco Nazareno as a candidate to the grant of the Rockefeller Foundation.

Sincerely yours.
