Escola Superior de Agricultura da
Universidade Rural do Est. de M. Gerais
Viçosa, Minas Gerais
Brasil, S. A.

Dear Dr. Schlottfeldt:

I have discussed your letter of November 23 with our director, Dr. R. W. Richardson, and with Dr. R. J. Laird, who is in charge of soils work in this Research Program.

As all arrangements for scholars must be made through the New York office, I would suggest that you write directly to Dr. Lewis Roberts, in regard to scholarships for your third year students, Adauto Nogueira Borges and Emilio Gomide Loures.

At the same time I might mention that we have been very well impressed with the men whom you have sent here to train with us, and I feel that I shall be able to accept another of your graduates in 1961. Laird is also ready to accept a man to work with him in soils. However, he wants to make it clear that he can give no special training in soil conservation. Most of his work is in the fields of fertility and soil chemistry. The fertility work consists of field studies of crop response to fertilizer treatments and other soil management practices.

I think that you know that in the Extension field we are best equipped to give training (in-service) in information work, but perhaps by 1961 we shall be able to give more preparation in general extension methods.

I hope that you have had a very pleasant holiday season and I want to take this opportunity to wish you a successful and satisfying year ahead.

Sincerely,

D. T. Myren

Delbert T. Myren

Viçosa, 23 de novembro de 1959

Dr. Delbert T. Myren
Calle Londres nº 40
MEXICO 6 - D.F.

Dr. Myren:

Os alunos Adauto Nogueira Borges e Emílio Gomide Loures, do 3º ano do Curso Superior desta Escola, mostraram-se, também, interessados em fazer o estágio oferecido pela Fundação Rockefeller, no México, sobre Extensão e Conservação.

Com o presente pedido, os nossos alunos desejam garantir a indicação de seus nomes para o ano de 1961. Evidentemente, esta medida estaria, ainda, sujeita às diversas condições exigidas, que deveriam ser atendidas oportunamente.

Ao ensejo, subscrevo-me com elevado apreço e consideração.

Atenciosamente

Escola Superior de Agricultura da
Universidade Rural do Est. de M. Gerais
