Dr. Carlos Schlottfelt, Director.
Escola Superior de Agricultura
Universidade Rural do Estado de Minas Gerais.
Vicosa, Brazil, South America.

Dear Dr. Schlottfelt :

Dr. Myren has referred your letter concerning
Sr. José Flávio Candido to me.

I understand from your letter that you would
like to have this young man learn more about corn
breeding when he finishes his studies there with you.

There is a good possibility that we could pro-
vide a scholarship for whom which would permit him to
spend a year with us on the Corn Program in Mexico.
Since he will not finish until 1961, it would be best
to hold the matter pending until August or September,
1960. It may be that I will be able to visit your
Institution before that time. If not, if you will write
me again I shall be glad to see what can be done.

Sincerely yours,

E. J. Wellhausen.
E. J. Wellhausen, M. L. M.
Associate Director.
