Dear Mr. Barbosa:

This will acknowledge receipt of your completed scholarship application and evidence of graduate school acceptance at Purdue for February, 1967. In looking through your folder, I note that we still lack a completed medical report form for both you and Mrs. Barbosa. I hope that you will be able to send these to us soon.

We do have the results of your English test, and I am happy to say that your scores were excellent. On this same point, we are recommending to many of our scholarship applicants that they take the TOEFL English test, and I would like to ask you to enroll for the next test which is scheduled for October 31, 1966. The deadline for applying for that test is September 26, 1966. I am, then, enclosing a brochure which gives detailed information for applying for the test. Included with the brochure is an IBM card which you should include with your application. This card may be used in place of the \$10 application fee normally required. You should specify on the test application that your test results should be sent to this office. When we receive the report of your test, we will send a copy to you. Please do not delay in sending in your medical reports, and I would appreciate a note from you acknowledging receipt of this information.

Sincerely yours,

Jesse P. Perry, Jr.
