Vicosa, Minas Gerais, Brazil, S.A.

Dear Ing. Schlottfeldt :

Last year you wrote to me about a student, Mr. José Flavio Candido, who was interested in coming to Mexico and work with us in our Corn Program, studying corn improvement methods. If I understood you correctly, this student would graduate this year and would like to come right after his graduation.

Please let me know if the student is still interested, because we will have to begin making the necessary arrangements now, if he is to come during 1960.

Sincerely yours,

E. J. Wellhausen,
Associate Director.

Dear Dr. Welhausen:

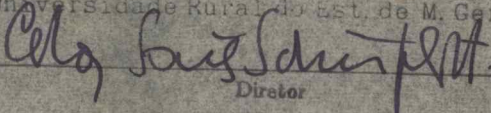

Some time ago we received your letter concerning Mr. José Flávio Candido. Unfortunately that letter as well as Dr. Brieger's telegram did not arrive on time here.

On April 23/60 we sent to Dr. Brieger this telegram: "Recebemos seu telegrama e carta Dr. Welhausen pt Solicito novas instruções conta- to aluno com aquele técnico pt Saudações." Again ~~it~~ it was unfortunate that we could not contact you and that up to now we didn't receive any infor- mation with regard to our wire.

May I inform you that Mr. José Flávio seems to be a very serious person who knows very well what he wants. Will you please write me again offering a new suggestion about this matter?

Sincerely yours
